wagons per day to meet the annual movement requiremnt of about thirteen million tonnes of fertiliser during 1985-86.

(b) During April to June, 1985 the number of wagons made available for fertiliser loading worked out to approximately 940 broad gauge and 470 metre gauge or 0.98 million tonnes per month. The annual target has been fixed at 10.5 million tonnes by the Ministry of Railways after considering the indents from all sectors.

(c) In close coordination with the Railways, efforts are being made to maximise movement of fertilisers by rail, the balance being moved by road.

Formation of a new National Labour Policy

1092. SHRI AMARPROSAD CHAKRABORTY:
SHRI S. W. DHABE:

Will the Minister of LABOUR be pleased to state:

(a) whether Government propose to formulate a new National Labour Policy; and

(b) when was the earlier National Labour Policy formulated?

THE MINISTER OF STATE OF THE MINISTRY OF LABOUR (SHRI T. ANJIAH): (a) and (b) A statement is attached.

Statement

The basic principles to be followed in our labour policy are already laid down in the Directive Principles of State Policy. These Principles have inspired our labour legislation from time to time. The Sixth Five year Plan made a review of the labour policy and set forth the objectives and strategy of the policy and programmes in the labour field.

The Approach Paper to the Seventh Five Year Plan, 1985-90 also provides, *inter alia* the need for reviewing the existing training programmes, training facilities in identified critical areas of shortage, provision of vocational and technical courses, formulation of a national wage policy, comprehensive legislation in respect of labour relations, possibility of organising labour welfare funds especially for the unorganised sector, streamlining the administrative machinery for implementing the minimum wages for agricultural workers and measures to be taken to strengthen the organisation and bargaining power of agricultural labour, efforts for rehabilitation of physically handicapped and need to identify the constraints affecting implementation of the legal provisions to protect the weaker sections like bonded labour, landless agricultural labour, migrant labour, construction labour and women labour.

Recently, a series of meetings have been held in the Ministry of labour on various issues concerning industrial relations, safety and health of workers, implementation of several labour laws and workers participation in management, etc. State Labour Ministers Conference was also convened in May, 1985 at which comprehensive agenda on various labour matters was discussed and certain agreed conclusions were reached. A sub-group of State Labour Ministers has also been constituted to consider some important issues which are proposed to be taken up before the Indian Labour Conference to be held in the near future (the last such Conference was held in 1971). After the Indian Labour Conference which is the national tripartite forum on which workers, employers, State and Central Governments are represented, the Government will be in a position to take a view on the changes

required in the labour legislation and the programmes connected with welfare and interests of the labour consistent with the objectives of the Seventh Five Year Plan.
